

NASA Goddard Space Flight Center

Wallops Flight Facility

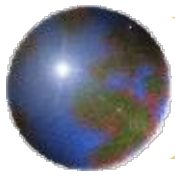

Wallops Island, VA

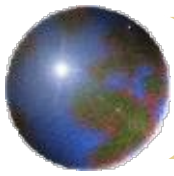

Wallops Main Base

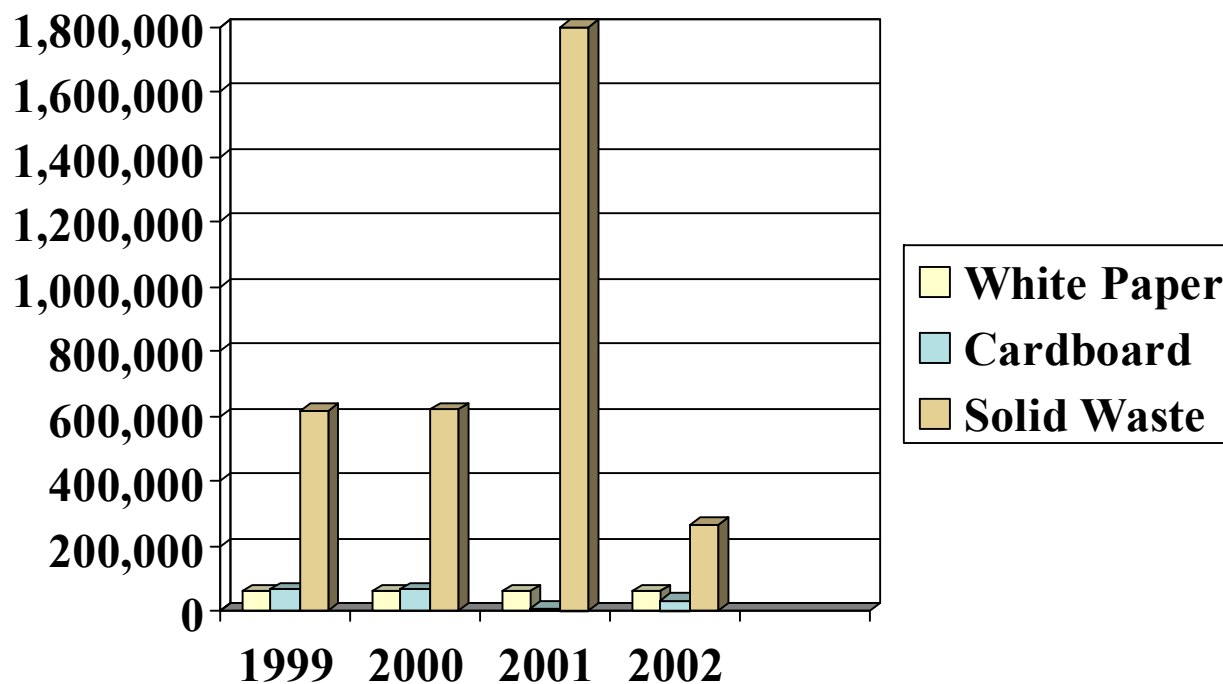

Wallops Island and Mainland

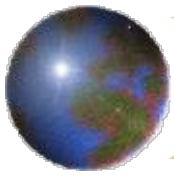

Recycling: Snapshot

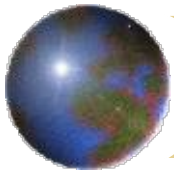

❁ Recycling Compared to Solid Waste (pounds)

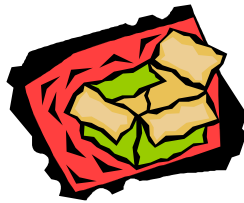

Recycling: Progress

- ✚ Joint Recycling Committee – Logistics, Facilities, Environmental, NAVY
- ✚ Dumpster Diving
- ✚ Currently recycle scrap metal, white paper, cardboard, oil, antifreeze, solvent, batteries, aluminum, and silver.

What We Throw Out

7% white paper

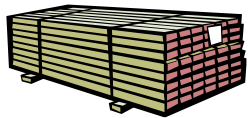

22% cardboard

6% newspaper

42% other paper
and food waste

4% wood

2% aluminum

4% metal

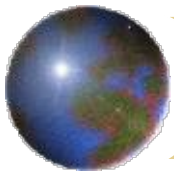

6% styrofoam

4% plastic

3% glass

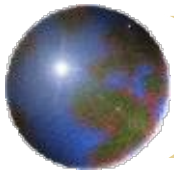

Recycling: Problems

✚ Location

✚ Money

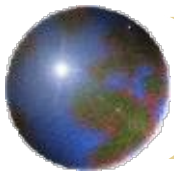

- ✚ Cardboard and white paper are recycled as part of solid waste budget
- ✚ Scrap metal – Break even
- ✚ Used Oil – Free
- ✚ Batteries – Environmental
- ✚ Can't find money to hire people to collect additional recyclables
- ✚ Revenue- Property Disposal sales

Recycling: Future

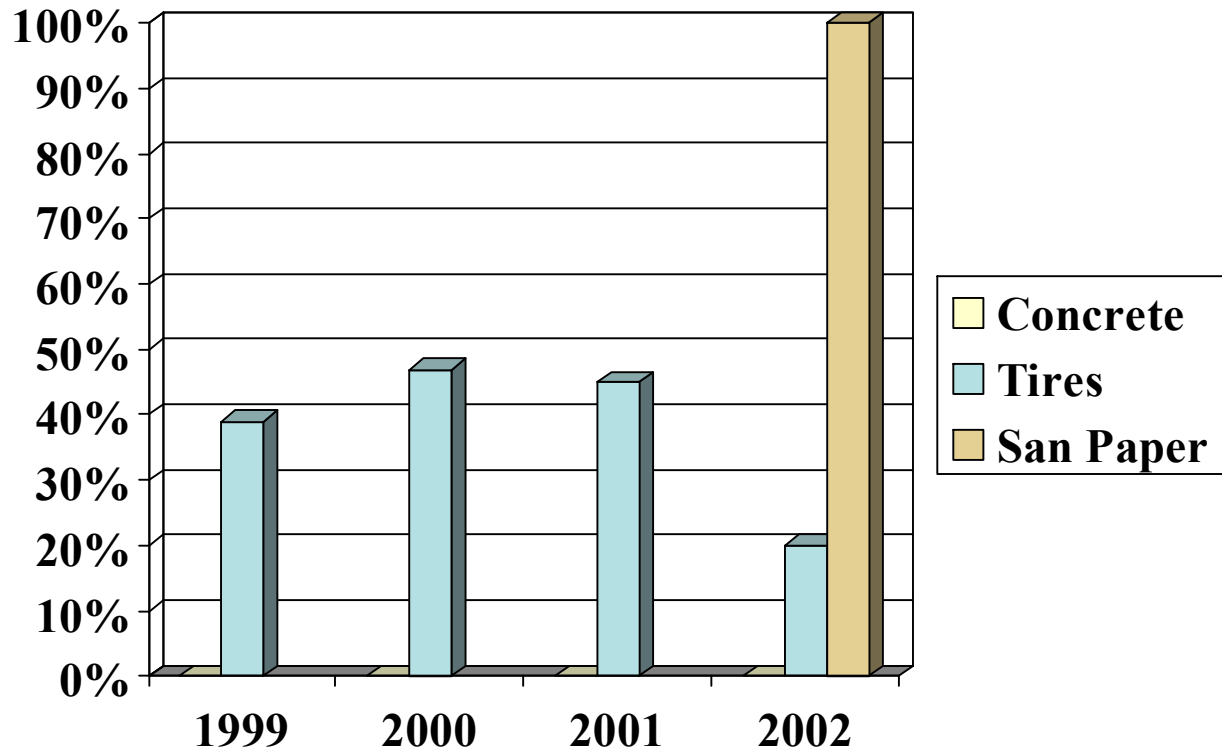

✚ NAVY ➡ Bale ➡ Sell

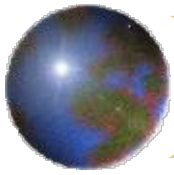

✚ Merge NASA, NAVY, NOAA recycling programs

Affirmative Procurement: Snapshot

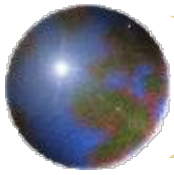

Percentage of Purchases Made with Recycled Content

AP: Progress

- ✚ Joint Procurement/Environmental working group
- ✚ Developed a 3 part Certification/Waiver form
- ✚ Held training in November

AP: Future

- ✚ Special Announcement
- ✚ Self Audits
- ✚ Improved Compliance and Tracking
